## ENORMOUS GAS SUPPLY AT PELICAN

**Party Returns From North With Glowing Report of Gas Field.**

### MILLIONS OF FEET ESCAPING FROM WELL

**Calhoun Oil Co. Strikes Large Flow at Depth of 1050 Feet.**

For fourteen years, 365 days in the year, day in day out, millions of feet of natural gas have been escaping from the well known and commonly known as the old Pelican gas gusher, situated at Pelican portage on the Athabasca River, 120 miles by river from Athabasca, and 140 miles cross country from Edmonton. The amount of gas which has gone to waste is almost incalculable. A conservative estimate places the loss at \$6,000,000 feet every 24 hours. The waste of natural gas, being waste of gas of the best commercial value, there is no outward damage in the flow of the gas from the well.

Picturing an immense flame shooting two or three feet into the sky illuminating the sky around for miles with a blinding glare which has made it a hazard to travel at night, and yet adjacent to the Athabasca River, Picture this and you have Pelican gas gusher, the roar of which as it issues forth from the ground is like the immediate vicinity.

The party who went north this time, were sent to explore the Pelican gas fields saw, saw more. They saw the new well, less than a month old, and the old well, from which a few of gas was struck alongside of which the flow from the old well of 140 feet per second.

The northern oil man, announced by the Calhoun Oil Co., laid the first well in the Pelican gas fields about two weeks ago, after J. C. Calhoun, president of the company had been informed by his commission requesting that he accompany him north with a view to investigating the possibilities of developing the oil fields for the city of Edmonton.

The commissioners found it impossible to arrive in time to see the city gas engineer, Jas. Brodie. The party left Edmonton Wednesday morning, October 3, and on Friday made the trip to the Pelican. J. C. Calhoun, H. A. Marquis, L. W. Williamson, Frank, G. Fraser, a medical health department, Jas. Brodie, and three newspaper representatives.

The Pelican Gas Gusher at Pelican Portage on the Athabasca which has been spouting for fourteen years as shown above.

Two representatives: Harold Moore, John Foster and F. M. Gericke.

The trip was made by train to Athabasca Landing and by steamer from there to Pelican Portage where a government steamer fire patrol No. 1 was chartered for the trip down the Athabasca River.

#### IMMENSE QUANTITIES OF GAS.

That there are immense quantities of natural gas in the Pelican gas fields was made patent to all whose first visit to the gusher was made.

While the gas field has been known for many years, the first report of immensity less and waste has shown on the slightest indication of original discovery.

For nearly any part of the country to go by this name. Immediately the state gas gusher, who was said to have supplied the name, was called to account.

The gas field was taken in charge by Mr. Ernest Bassey, a local business agent, who is also a defendant, told the press that he had been called to the gas gusher by the Canadian newspaper in the morning as something was going to happen.

#### HISTORY OF THE WELL.

A history of the gas field development will at this stage might be appropriate. Fifteen years ago, in the month of August, 1897, to be exact, Mr. Frank, a Dutchman, a native of the United States, made the trip to the Pelican. J. C. Calhoun, H. A. Marquis, L. W. Williamson, Jas. Brodie, and three newspaper representatives.

## EAST SIDE GANG LEADER IS SHOT

**Man Who Is Said to Have Sponsored "Gummen" Is Himself Murdered.**

By Bulletin Leased Wire. London, Oct. 6.—The Portage at the Balkan problem has again assumed a serious aspect. On Saturday, Sept. 28 the quota from Edmonton was taken in charge by Mr. Wilson, manager of the Calhoun Oil Company, and shown the new well, which is situated a hundred yards or so from the old well, and surrounded by a huge derrick 75 feet in height. The visitors were taken around the new well and shown the drilling operations.

## PROSPECTS ARE BRIGHTER FOR PEACE

**Porte Has Announced Willingness to Give More Self Government**

### POWERS MEDIATION MAY BE EFFECTUAL

**Collisions Are Reported Between the Turk and Greek Forces.**

### DOING EVERYTHING TO PREVENT A WAR

By Bulletin Leased Wire.

Ladybank, Fifeshire, Scotland, Oct. 5.—Premier Asquith declared today that he had not lost all hope that the unspeakable calamity of war might be averted by the great powers working together in peaceful and loyal cooperation for the preservation of peace.

In addressing his constituents he said he could not say more at the present moment than that everything that could be done was being done to prevent a general European catastrophe. He admitted that for a long time the international horizon had not worn such a threatening aspect as it did to day.

### DISTRICT ATTORNEY HAS STRONG CHARGES

**FIVE DAYS AFTER EXPLOSION THREE TWENTY-ONE WERE KILLED AND SIMILAR EXPLOSION WAS COMPROMISED ON THE ATLANTIC COAST.**

By Bulletin Leased Wire. Indianapolis, Oct. 5.—Five days after the blowing up of the Los Angeles Times building, when twenty-one people were killed, a plot was concocted by the McNamara's to cause another explosion on the Atlantic Coast.

Chas. W. Miller, United States district attorney, who is conducting the prosecution of the men accused of the bombing of the Times building, said that the plot was apparently hatched in a meeting of the executive board held in Indianapolis on Saturday evening.

Mr. Miller quoted from books which he said were taken from the McNamara's home, which was located in Indianapolis.

South Side Office 24 Whyte Ave. E., Phone 3414.

**PHYSICIANS SUCCESSFUL.**  
The following candidates who wrote at the recent medical examinations held at the University of Alberta have been successful in obtaining certificates of qualification permitting them to practise medicine and surgery in the province of Alberta.  
There are three or four who have yet come forward to take the examination. A direct communication will be sent to each candidate by the registrar of the University of Alberta.

**UNIVERSITY STUDENTS.**

The following students have been successful: Norman Allin, N. T. Beaumont, William G. C. Gunn, W. H. Honey, E. H. Cooke, G. C. Gunn, W. H. Honey, R. W. Height, T. L. Harrison, John H. Hart, J. W. Hart, J. W. Hart, J. W. Hart, W. J. McAllister, A. J. McFarren, S. G. Mills, A. R. Moodie, Harold Orr, J. W. Orr, J. W. Orr, J. W. Orr, G. Sherriff, G. L. Williamson, John Gilkes.

The following candidates having been successful in all but one or two subjects have been granted supplemental certificates entitling them to the next supplemental examination in April: J. A. Jardine, materia medica; V. Kaufman, E. B. Knowles, pathology and medicine; C. E. McCutchen, physiology; and materia medica; G. H. McEwan, pathology and materia medica; L. W. Remond, pathology and materia medica; C. P. Atkinson, materia medica and chemistry.

The results of the examinations in dentistry and architecture will be announced in about ten days.

**SPADE WORK IN PALESTINE.**

A lecture was delivered at Alberta College on Friday night by Rev. Dr. Barnes, of New York city, "Some Work in Palestine." Dr. A. C. Rutherford occupied the chair. The lecture was illustrated with lantern slides and drawings showing the general results of excavation in Palestine.

Among the illustrations were the interiors of burial houses, and tablets with inscriptions, some of which have been dated as far back as 1,500 B.C. Special interest was attached to the majority of the pictures, as they have been photographed by the lecturer, who spent much time in Palestine in research work.

Fully 200 of the student body were present, and many appreciated very much the privilege of listening to such a lecture.

## THE NAKAMUN ASPHALT & OIL COMPANY, LIMITED

NON-PERSONAL LIABILITY  
CAPITAL STOCK \$1,200,000—PAR VALUE OF SHARES \$1  
NON ASSESSABLE

TO THE INVESTING PUBLIC:

Are you interested in having good bonds?

Of course you are.

Who can estimate the total yearly loss to the Country through bad streets and roads?

**LISTEN!**

We have a material, ASPHALT, found only 11 miles from a railway and 38 miles from Edmonton, which is acknowledged to be the most suitable material for streets and road making known.

At present this material is bought in various forms from Europe, Trinidad, and California, the cheapest of which cannot be laid down in Edmonton for less than \$22.00 per ton.

**CALL AT OUR OFFICE AND SEE THIS REPORT**

Read what an acknowledged expert says about our deposit. "From my experience in similar cases, I should judge you have a large deposit of asphalt which underlies much of the surrounding country and owing to its nearness to the surface on your property, should be easily mined at a very low cost."

### A GOOD INVESTMENT

Would you not like to have an interest in this? It is a well known fact that Asphalt deposits are a sure indication of Oil.

### YOU CANNOT LOSE

Then rend what Mr. Williams has to say, "I believe to the best of my judgement, that the drill would prove both the existence of Gas, and Oil."

At present there is a movement on the Athabasca River, to Edmonton, a distance of 170 miles. Calgary is piping gas from Bow River Island, 200 miles away.

Think of the possibilities should Gas be found on the property, and WHY shouldn't it, lying as it does in the centre of the great belt?"

### WE HAVE THE GOODS

At the present moment if you order a ton of coal delivered to your house, how long do you have to wait for it? WHAT DOES THIS MEAN? Simply this, that our development is going forward so rapidly and our population increasing at the same rate, it is impossible to supply the demand.

Shares are now selling at 25¢ that will double in a short time. For further information, CALL on or WHITE the

### THE MANAGER

201 Rudy Block, Jasper Ave. E., (Phone 6840).  
EDMONTON Live Agents Wanted.

The lecture closed with a few remarks by Prof. Alexander, the local secretary of the Archaeological Society. The lecture was received by the public generally must be appealed to for funds with which to propose the construction of a permanent building. Prof. Alexander will be glad to receive applications of members. The sum will be given once a month during the winter.

### SOUTH SIDE POLICE COURT.

At the South side police court on Saturday morning Robert Pasquill was fined \$4 and \$1 costs for being drunk.

Edward Silton, on a charge of drunkenness, was remanded to 10:30 a.m. on Saturday morning, \$10 fine and costs of \$1.

Andrew Andrew was fined \$5 and \$1 costs on the charge of being drunk while driving a car.

The following candidates having been successful in all but one or two subjects have been granted supplemental certificates entitling them to the next supplemental examination in April: J. A. Jardine, materia medica; V. Kaufman, E. B. Knowles, pathology and medicine; C. E. McCutchen, physiology; and materia medica; G. H. McEwan, pathology and materia medica; L. W. Remond, pathology and materia medica; C. P. Atkinson, materia medica and chemistry.

The results of the examinations in dentistry and architecture will be announced in about ten days.

### SUPPLEMENTAL EXAMS.

French, I.—Antique—First term, C. Eason.

French, I.—Authors—First and second terms, H. Leaver.

French, I.—Composition—First and second terms, H. Leaver.

## FINE DOCTORS WHO FAIL TO REPORT TYPHOID

This Decision is Reached by Board of Health—Food and Dairy Inspector in Winnipeg to be Offered Salary of \$2,500.

"For the doctors if they don't report typhoid fever cases as soon as they develop," is the dictum issued by the board of health. Dr. Whitehead, president of the board, said that if there is no other way of getting the doctors to report typhoid, he must bring a few of them to the police station and have them swear to others that they had been paid to cover up the cases.

This decision was reached as the result of the large number of typhoid cases reported by the doctors, and the doctors had been heard to say that they had had such a number of cases that they did not even know they had ever been reported to the board of health.

It was suggested that cards should be given to the various hospitals in the city, and they should report each day as to the number of typhoid cases admitted.

### Dairy Inspector.

J. B. Tustin, food and dairy inspector in Winnipeg, will be paid an additional \$2,500 a year, and according to Dr. Whitehead, he will be willing to cover up for that salary.

Porter suggested that the salary paid the chief dairy inspector here is \$1,100.

"It ought to be \$1,500 a year to get a really good man, and one whose record we know something about," remarked Mayor Armstrong.

### Council Demands Expert.

While the public seems to care one for the typhoid fever cases, it is felt that there has been such demand from a council for expert dairy inspection that the board of health has decided to have the health officer ask Tustin if he will accept the position of \$1,500 a year, and, according to Dr. Whitehead, he will be willing to cover up for that salary.

The case was finished in two days instead of the several days Dr. Tustin took to complete it.

Porter Wilson was fined \$20 and costs for driving an automobile at an immature speed.

George Church was charged with negligently driving his car and his complaint failed to appear.

The man was fined five dollars and costs each or ten days.

### Shadwell Barred.

London Oct. 5.—Edith Duran had

a pretty fast spin yesterday, cutting

26 in the first minute and rarely fal-

tering after that.

Her drunks were under the impression

that the hours were to be increased, moral which he presented to the British manufacturers from his experience on land, he said. British makers of mining machinery had more than held their own in the market, and he urged the corporation to him that it seldom met with such a favorable reception.

He said that the miners were probably the ones who were racing ahead to South Africa as a great market for their products.

To Hesse Water Rates.

Winnipeg, Oct. 5.—Winnipeg has decided to increase its water rates by one-third, to raise money to pay for its additional wells.

In connection with the Shadwell Barred.

London Oct. 5.—Edith Duran had

a pretty fast spin yesterday, cutting

26 in the first minute and rarely fal-

tering after that.

Her drunks were under the impression

that the hours were to be increased,

moral which he presented to the British manufacturers from his experience

on land, he said. British makers of min-

ing machinery had more than held their

own in the market, and he urged the cor-

poration to him that it seldom met with

such a favorable reception.

He said that the miners were probably

the ones who were racing ahead to South

Africa as a great market for their prod-

ucts.

AROUND THE CITY

LAWSONS.

Canadian Pacific R.R., Lake Michigan, was reported by wireless 140 passengers were on board yesterday. She is due at Quebec at 4 p.m. on Tuesday. The passengers are due to return to Edmonton Saturday.

The regular monthly meeting of the Edmonton Board of Trade will be held in the Hotel Alberta on October 15. There will be lunch at the King Edward Hotel at 1 o'clock. The meeting room is open for business in the board room at \$35.

F. W. Peters, vice-president of Canadian Pacific R.R., came to town yesterday and went south on the afternoon train. Mr. Peters' trip was of

a pleasure nature and there was nothing done in the way of business while here.

TRISH ASSOCIATION.

The opening meeting of the Edmonton Irish Association for the winter was held at the Hotel Alberta on Wednesday, October 9, at 8 o'clock.

An interesting meeting is assured as a debate on prohibition has been arranged which is likely to be of very great interest. The meeting will be presided over by J. H. Clegg and P. J. Dunn, and the speakers will be Mr. Billings, Mr. A. G. Clark, Mr. H. Billings. All the speakers are forcible and resourceful speakers.

Mr. H. Billings, one of the speakers, is the meeting will be

large audience as the meeting will be very enjoyable and will be open to the public at 8:30.

ASSURANCE MEN HERE.

A part of assurance men connected with the Metropolitan Life Assurance Co. were in town yesterday and were shown around by President Milton Martin, of the board of trade, and Mr. J. H. Clegg, president of the mid-morning train for Calgary where a meeting of the western representatives of the company was held. Those in the party included the following: Vice-president, Hales Blake; Fourth Vice-president, Mr. E. S. Tamm; Tally, Ched Solonier in New York; A. G. H. Claxton, Montreal; Mr. F. J. D. Douglas, executive director, Competitive Dept., St. John's, Newfoundland; Mr. E. Kavanagh, wpt., St. John's, and J. E. Kavanagh, wpt., of agencies, all three of New York.

"A RUNAWAY MATCH."

There will be something doing tonight at the Lycée when the Misses E. & F. S. S. will appear in three acts entitled "A Runaway Match" as it is called. The Misses S. are the "Aunt" and "The Match that Left Home."

The complications that result from the meeting of two young girls with a mother and daughter on the accidentally meeting at a country inn, the girls being on their travels, and the girls' desire to try and outdo each other most humorously.

Jack, the boy, will shinny forth in a role similar to the one he had in "Way Down East" that of a "rake" boy, who is a clear picture of a rascal, the tavern, and it is without a doubt, the funniest character in which Mr. Westerfield has ever played. The curtain will be put on pretty strong. Mr. Crispie will have another hit comedy. Mr. LePage will be the father; Miss Russell, the daughter, a part entirely different from the one she has seen in before her; Miss Gertrude will be the dashing young widow; Miss Rita will be the maid; and Harry Hartmann will make his remarkable return to the ensemble. The girls will be in keeping with the play. One act showing a rural life will be very natural, and the curtain will fall at 8:30. This week with a popular priced ladies and children's matinee on Saturday.

CRASH MEN KILLED IN AN AUTO COLLISION

Machine Was Captured Over Bridge and Dowd and Cox Card Yard From Fort Street—It is reported That the Two Autos Were Racing.

By Bulletin Leased Wire.  
Philadelphia, Oct. 5.—A collision on a bridge in which three autos were involved resulted in the death of one man tonight. One of the machines, containing nine men, came on the bridge at top speed and was stopped by the car driven by John J. Spade, a Philadelphia contractor, who was going over the bridge in the opposite direction to the car.

He tried to avoid the car, but he became a part of the machine which was directly behind the speeding car and ran into it with the result that the first car was thrown over the bridge and down into a coal yard alongside the Pennsylvania railroad tracks. The driver of the second car was killed.

Spade said that it appeared he and the two cars were racing over the bridge. He had been racing with John Shaw, Jr., of Merchantville, a son of the owner of the car; David Wilkes, of Gloucester, and John A. Ford; Wm. L. Lawrence; H. Geisel, one unidentified. All were young men.

HOLD-UP ON HEIMICK RESOURCES FIRED UPON  
(Continued from Page One)

Mr. Hartman had just returned that evening from a business trip to Leslie. When he had gone to Leslie, he had in his possession \$1,000 in cash. When he returned, he had only a hundred dollars left. He had been home and dined with friends in the Boston clothing and men's furnishings store, which was located on the corner of Main and 10th Streets. Coming out of the store he took a car to carry him out to the station. The car was so badly crowded, decided to walk. He walked out Navamoy Avenue as far as 10th Street, and then turned back and took advantage of the good sidewalk, the street being torn up along the way.

Mr. Hartman turned down the street he noticed the two men turn down after him, having the same idea as he had. They followed him about half way to Kinistino Avenue where the men started to pass him off. The two men, one English speaking and foreign, and in mechanical drawing, and one French speaking and English. He heard the cries of the men and saw the attack.

A Pointed Question

Buying education is like buying anything else. Does it pay?

A number of young people who go direct from our class rooms every year to obtain employment, find no employment. They say it pays, they say it doesn't. We know it will pay.

Now, as about NIGHT SCHOOL for Monday, six months cost \$25. It's worth more.

EDUCATION CLASSES.

The enrollment of pupils for evening classes in the Edmonton High School and its Schools will take place on Monday, October 14, from 7 to 9:30. Courses will be offered in the English, French, German, Spanish, Italian, Latin, Greek, and in foreign and classical languages, and in mechanical drawing, architecture, practical mathematics and English. J. MCAGAO.

CALGARY REALTY MAN MURDERER AND SUICIDE

Caused Through Jealousy John C. Davis Shoots His Wife Dead, Brothers and Son Commit Suicide and Then Kill Himself.

By Bulletin Leased Wire.

Calgary, Oct. 6.—Grazie through jealousy and his inability to effect a reconciliation with his wife, John C. Davis, a realty operator, fired three bullets into her body, killing his instant, wife, Mrs. Mary Elizabeth (Mrs. John C. Davis), a private detective, and then ended his own life.

His bulletins stated that the tragedy occurred at 316 Dixon's apartment at 8:30 last night.

The triple homicide was the culmination of marital troubles covering a period of more than a year.

John C. Davis, 42, was the husband of Mrs. Mary Elizabeth (Mrs. John C. Davis), 36, a woman of slender figure.

Both the wife and the husband were lost in the trifling of a stroke.

The couple had been separated on insanity by the separation, Davis followed his wife and son to a house.

From the window of his room he could obtain a view of the apartment across the street.

For three days and nights he kept up practically a constant vigil.

He was tormented by bordering on
